## Action of Alabama Democrats Favoring Primaries Talked of by Politicians.

At Frankfort the advocates of a state primary in Kentucky next year to select the Democratic nominees from governor to commissioner of agriculture are much gratified at the action of the executive committee of the party in Alabama, taken in determining to cast aside the ancient custom of nominating a state ticket by convention and substituting therefor a primary election.

For months says the dispatches, the Democrats of Alabama have been discussing the matter, and will adopt the South Carolina plan which has worked with satisfaction for several years. This matter was thoroughly discussed in the press of the state of Alabama. Ninety percent of the newspapers of the state demanded it as the fairest method of nominating candidates, and in a short time it became exceedingly unpopular for a politician to oppose it. The question aroused more public interest in Alabama than anything before the party leaders for years. Seeing that the people were clamoring for the nomination of candidates by a method closer to them than the convention method was admitted to be. Prominent in the movement for the primary method was Gov. Oates, the only prospective candidate for the United States Senate against Senator Pettus. Like Senator Blackburn, of Kentucky, in a recent letter to the Hon. James M. Richardson, of Glasgow, Governor Oates expressed the desire to live to see the day, that not only candidates for State offices, but candidates for United States Senate as well will be nominated and elected by direct vote of the people whom they represent.

**A Good Roads Convention.**  
A Good Roads Convention has been called to meet in Lexington August 11 and 12. It is very desirable that the County Judge of every county and the Mayor of every city in the State lead his influence to make this convention a lasting benefit to the Commonwealth. It is an added impetus to the good roads movement. The Chamber of Commerce, the Elks and the city and county officials of Lexington and Fayette county will do their full share toward making the convention a success. It has been arranged that three pikes near the city limits and at least one or two streets in the city be in the course of construction during the time of the convention for the special benefit of the delegates.

**Lead and Zinc.**  
For many years it has been known that the lands lying between Becknerville and Athens on Athens or Boone's Creek and extending to the Kentucky river were rich in traces of lead ore and other minerals. The Boone's Creek Mining Company, composed of the Messrs. Chennault, of Richmond, and several capitalists of Louisville, was organized, and arrangements made to make a thorough test. Six hundred acres of land were leased from Messrs. John Rogers and Lee Smith, and various test shafts were tried. The analysis of the ores obtained were so rich in lead and zinc, with traces of silver, that the members of the company were greatly elated, and they think that they have one of the most valuable properties of the kind in the State. Leases on other lands have been obtained, under charge of Capt. Dewey, of Richmond, who is an old and experienced miner. A large shaft will at once be sunk, and a crusher and smelter erected, and the development of the property will be rushed with a large force.—Winchester Democrat.

**The County Attorneys.**  
The County Attorneys' association in session at Estill Springs elected the following officers: Sam T. Molloy, of Kuttawa, president; Sam Tracey, of Covington, vice president; L. Vega Clements, of Owensboro, treasurer; W. T. Davis, of Pineville, secretary.

Japan will fight unless Russia evacuates Manchuria.

**True Men.**  
The finest type of manhood is never overwhelmed or entirely dismayed, no matter what comes. A man of this best type may see his property swept away from him, his hopes blasted, his ambitions thwarted and his plans demolished, but his spirit remains undaunted, his courage, his trusts, and his self-confidence undiminished. His success is beyond the reach of mere accident of fire, of panic, or of a temporary disaster. The foundation of his success is laid upon the eternal rock of truth, of justice, of probity, of high thinking, and of square dealing, and no floods or misfortunes or commercial devastations can reach him. They do not touch the real man, for his investments are in himself. It is only the more shallow minds, men without reserve of character, without other resources than money or property, that go down in financial failure. The man who has learned to live in himself, and not in his property; who does not put his trust in riches, but in principle, does not lose his greatest possession when he loses his money.

**Power to Fix Rates.**  
By the new Constitution of the State of Virginia, which went into effect Thursday, there will be in the place of the single Railroad Commissioner a Corporation Commission. The body is to be composed of three members, to be named by the Governor, and confirmed by the General Assembly. The commission is given power to fix rates for railroads, express, telegraph and telephone companies. The only appeal permitted from its decisions is to the State Supreme Court. The law forbids every State, city or county official to accept free transportation.

**Texas' Biggest Farms and Farms in Tennessee.**  
By the Census Bureau, the value of farm lands and farm property in Texas amounted to \$92,430,273. There were 352,190 farms in the State, an area of 125,807,017 acres. The average size of Texas farms is 353 acres, but only a little more than 15 per cent of the land is improved. The largest farm embraces 450,000 acres. The average size of the live stock farm is 2,115 acres and of the cotton farm 98 acres.

Census Bureau places the number of farms in Tennessee at 224,028, of an average size of ninety acres. Seventy-six percent of the acreage of the State is devoted to farming. The farm lands, with their improvements, are valued at \$260,150,150. The value of farm products for 1899 is \$106,166,440. Fifteen percent of the farmers of the State are negroes.

**Military Encampment at Mammoth Cave.**  
As Commander-in-Chief of the State Militia, Gov. J. C. W. Beckham, on July 7, issued an order designating Mammoth Cave as the place where the State Guard soldiers will go into camp for military instruction from July 30, to August 18. The Second regiment, K. S. G., with such unassigned companies as may be attached thereto, will go into camp on July 30, and remain until August 8, inclusive, and the Third regiment, K. S. G., with such unassigned companies as may be attached thereto, will go into camp on the 9th day of August, and remain until the 13th.

The battery of artillery will camp the 14th day of August and remain until the 13th, inclusive.

When Lord Kitchener, with his staff, including Gens. Warren and Ian Hamilton arrived Saturday morning at Southampton, they were given an enthusiastic welcome. At London, the Prince of Wales, Lord Roberts and a host of notables received Lord Kitchener. London gave him one of the greatest ovations ever accorded any man. After a luncheon at St. James' Palace, at which the Prince of Wales presided, Lord Kitchener was taken to Buckingham Palace, where he was received by the King and Queen.

Detective John Sheridan, of New York, was killed by three men whom he attempted to arrest.

## Did He Say It?

They laid the Kentucky gentleman on the operating table. His revolver was in his strong right hand. "Boys," he said to the assembly, "I know this is going to be a serious affair. But let me tell you something," and he tapped on his revolver. "If I have to go I'll certainly want company. An' if you make way with me while I'm out, the influence of your durned opium, I've got six sons at home who would be only too delighted to show you what they think of your lack of skill, in case it does lack. And they'd be prepared to follow you around from King's bridge to Kingsboro come until they even up things for the loss of their old dad. That's all out away." Perhaps it is unnecessary to add that the operation was completely successful.

## Do Well Your Part.

While God never meant that any life should be useless, and idle, he evidently intended that many of us should do our part without attracting the public eye. There are voices that can not make themselves heard beyond a very small radius, however much the owner may otherwise desire. There are peculiar temptations that attend those who walk the quiet ways of life. We are so likely to feel the omnipotence of our quietness that we will slight it. The temptation to omit small service is always greater than that which comes when acts of heroism are to be performed. It is often hard for the loyal disciple to live his quiet life quietly. He can not do it if he fails to remember that God's eye is upon him that God will reward.

## Automobile Races at the Lexington Elks' Fair.

Automobile races are to be made a daily feature at the Lexington Elks Fair, Aug. 11 to 16, inclusive. Carl G. Fisher, the Indianapolis champion, and Jack Graham, the Chicago secured annihilator, have been secured for several exciting speed contests and they will try for the championship during the fair, for a large purse. The Lexington Elks' Fair and Exposition Company, a World's Fair at traction, has been secured to supplement the old-time midway features and will be one grand, gorgeous European spectacle in an arena which accommodates 3,000 spectators. This Company, which was organized in St. Louis especially for the Louisiana Purchase Exposition, travels by its own special train of twelve cars, carries 212 people, 20 horses, 41 sets of scenery and three military bands. Nothing exactly like it has ever been seen in these parts before, it is said, and those who attend the Lexington Elks' Fair will certainly have an opportunity of seeing something entirely new in the amusement line.

Phinney's famous Chicago World's Fair Band will give daily concerts Monday afternoon and night during the fair. This big band carries a car load of special effects.

## LAND, STOCK AND CROP ITEMS.

The E. S. Donahy sale of Scotch Shorthorn cattle at Des Moines, Iowa, 99 head brought \$76,980. The highest was a heifer, Butterfly 11, by Wildwood, for \$1,700. Several brought more than \$1,000.

Jas. F. Summers and C. F. Foster delivered their crop of new wheat to W. S. East at 75 cents per bushel. A few other crops have also been bought at 75 cts. but many of the farmers are anticipating a rise, and are slow to sell yet, some thinking that the price will go to a dollar before fall.—Flemingsburg Gazette.

Cattle men of Fleming county are holding good feeders at \$5.50 per hundred.

Wheat buyers are paying eighty cents for the new crop in Warren county.

The wheat crop in Ohio is breaking all records in that State. One farmer threshed 2,200 bushels from forty acres, and the average yield in the wheat belt will be forty bushels per acre.

## Needs a Typewriter

The Harrodsburg Democrat received a business letter from Dr. L. H. Blanton, Vice President of Central University, which three editors and three typewriters were utterly unable to decipher. Dr. Blanton's charming and lovely daughter, Miss Katie, who was visiting Mrs. Hal Grimes, happened to pass along when she was called into the office and explained the dilemma. Miss Katie being familiar with her father's hieroglyphics, read his letter easily.—Exchange. He should learn to write.

## A Male Story.

Pete McGarvey was taking up hay in Shaker Bend and driving his well trained mule, when he uncovered a nest of bumble bees. They rose en masse and pounced upon him, many of the insect-armed warriors getting through his open shirt front, and pinning his person at such a rate that he lit off the machine and then out of his shirt. His faithful mule nipped off a wisp of hay in his mouth. Sent to his assistance and brushed off and routed the bees. Farmer A. Jersou, who lives on McGarvey's place, witnessed and vouched for the truth of this incident.—Harrodsburg Democrat.

Heaven's demand for honor to parents not only finds place in the Old Testament, but in the New. The sacredness of the home, and the obligations of the home life, are never lost sight of in the Scriptures. The young today have need to fear that their "independence" may lead them to ruin. God new at the beginning, and all men now recognize, that honor from child to parent, and indeed from all youth to all age, is basic in character-forming.

The striking freight handlers in Chicago have voted to return to work.

**VERY STALE.**  
 Placing the Democratic mass meeting of last Saturday alongside with those of recent dates it would appear that the better element is at last in the saddle. The entire time of assembling, stating of call, making permanent organization, offering resolutions, adopting of same and adjourning, requiring a great relief came expressions of disappointment.

**LOOK OUT.**  
 This a busy week. The city will be full of people day and night and we may expect some of all kinds. It would not be out of place to suggest to our housekeepers to keep their doors well bolted at night and their means of defense close at hand. The police will do all they can, to keep the intruders at bay, but they cannot beat all places at the same time. They may be aided by the free use of the telephone.

**JUDGE HAZELRIGG FOR REPRESENTATIVE.**  
 A petition is being signed by Democrats at Frankfort calling on former justice Hazelrigg to accept the party nomination for County Representative in the General Assembly. Though residing at Frankfort for ten years past Judge Hazelrigg has exercised his citizenship at his old home in Montgomery county. It is said he has signified a willingness to represent Franklin county and lead its fight for an appropriation for a new State Capitol if he is tendered the nomination without opposition. He could become a citizen of the county before the 1903 election. We don't suppose Judge Hazelrigg will say goodbye to the people who have made him and who are ever ready to do him honor, in order to lend himself to a task

selfish largely to Franklin county. Our broadest and biggest men should represent Kentucky in her legislative halls and if he is to go from any point Montgomery stand ready to confer the honor.

**WELCOME.**  
 We, on the part of our people extend a hearty welcome to all who may visit our city this week. We are going to be at our best; we are going to be old time Kentuckians. The half of what we have is yours to the crust. We have on our go-to-meeting clothes, looking our best in decorations we can afford. We want you to see us. Then we want you to enjoy what we have. Come dine and lunch with us, enjoying the great fair, the fine music, the artistic exhibition in the floral hall the fine shows of stock, the parades of the orders, the float processions representing our various lines of business and the wonders of the Midway. Come, thrice welcome; the city is yours if you behave yourselves, if not, then you are ours.

**WERE THEY SINCERE.**  
 During the term of the last legislature it was given out that Rev. B. F. Hungerford, of Shelby county, would be chaplain of the Frankfort prison. The people of Kentucky remember the pledge, if pledge it was, and waited the time when the Prison Commissioner would formerly elect Rev. Hungerford. We are disappointed. The party is disappointed.

**Oil and Gas.**  
 Mr. Samuel Robinson, President of the Mt. Sterling Oil and Gas Company was in the city last week and was seen by the Advocate News-Gatherer. The most enthusiastic man, free from excitement in Mr. Robinson. "What have you in your field?" asked the eager newsman. "Every thing valuable; we have plenty of oil, of the highest grade, our tank with 56,000 barrels capacity is about full and we must have another tank or construct a pipe line." What is that oil worth Mr. Robinson? That's the question, I suppose in its crude state anywhere from \$2.00 up per barrel. If \$2.00, the tank's contents would bring \$112,000, it may bring double this amount. "I wish you could find gas," said the reporter. "Gas! we have it with a better pressure than in the Indiana fields. We have been using gas for one fifteen horse power and for one twenty-five gas engine, for fuel for a fifty horse power steam boiler, and another of twenty five horse power. The supply comes from one well, and there is no decreasing of pressure. We will continue this test for three or more months and if it proves as we think, it will be inexhaustible, we will then form a company and pipe to Mt. Sterling, Winchester, Richmond, Paris, Lexington and other large gas consuming points. In addition to this, which is strictly the Ragland District, we have organized another company called The South Bud Oil Company, with a capital of \$200,000. This company owns lands in nine districts of the State. The lessees contain 80,000 acres of territory in Montgomery, Bath, (Ragland fields), Menefee, Rockcastle, Clark, Powell, Morgan and Johnson counties. Of the \$200,000 stock, \$90,000 has been put on the market at 25c. per share, each share having a par value of \$100 each. In this company are some of the holders of the original Ragland Company and they value their holdings as high as in the old company. It has some good wells in both Bath and Montgomery and is hastening to explore other territory. With oil fields in successful operation here, gas giving cheap fuel, an electrical line connecting them, a new business will possess us."

**Democratic Mass Convention.**  
 At the courthouse Saturday afternoon the untitled of Montgomery police assembled to express their choice of a candidate for Congress as between Amos Davis, of Morgan, F. A. Hopkins, of Floyd, J. B. White, of Estill, and Lawson, of Pike, to find that the way had been made clear by an agreement between candidates and county party leaders. The meeting was called to order by Chairman of District Committee R. A. Chiles and object stated, whereupon a permanent organization was effected by the election of Hon. H. L. Jones, Chairman, Squire Turner, editor of the Sentinel-Democrat, and J. W. Hedden, editor of Advocate, secretaries. The following resolutions were presented by Hon. W. B. White and carried without opposition. The meeting adjourned without giving an opportunity for any kind of dispute.

At a mass convention of the Democracy of Montgomery county, Ky., held at the court house in the town of Mt. Sterling Ky., on Saturday, the 19th day of July, 1902, at 1 o'clock pursuant to a call of the Chairman, said convention being called to order by R. A. Chiles, Chairman of the county. On motion Henry L. Jones was chosen Chairman of the convention and on motion J. W. Hedden and Squire Turner were elected Secretaries. Thereupon the following resolution was offered by W. R. White and the vote being taken upon the adoption of same, it was carried. Said motion is as follows: Resolved—That R. A. Chiles, H. R. Prewitt and A. W. Young are selected as delegates to attend the Democratic District Convention to be held at West Liberty, Ky., on July 24th, 1902, said delegates so selected to cast the vote of Montgomery county, Ky., for Hon. J. B. White for the Democratic nomination for Congress in the 10th Congressional District, and to use all honorable means to secure his nomination. And upon all questions that may arise in said convention to vote as a unit and in accordance on motion said convention adjourned.  
 H. L. JONES,  
 Chairman.  
 J. W. HEDDEN,  
 SQUIRE TURNER,  
 Secretaries.

**Goes to Winchester.**  
 Hon. Floyd Byrd, of Campbell, who has so long and faithfully served this judicial district as Commonwealth's Attorney, is building a commodious two story frame dwelling house on the lot he recently purchased in Winchester near the Female college, and will remove his family to their new home in the Blue Grass city to reside. Mr. Byrd wishes to give his children the benefit of superior school advantages.

**Injunction.**  
 A contest for the office of chief of police of Lexington is now attracting attention. The parties to the contest are J. W. Marshall on one side against Ragan and Duncan. The lower court at Lexington granted to Marshall an injunction restraining Ragan from acting as chief.

The case was taken to the Appellate Court. By agreement it was to be considered by Judge Ed O'Gear, who is now visiting this city. On Friday Messrs George C. Webb and George Hunt for Marshall, and John Shelby and Henry Duncan, Jr. for Ragan, came to this city to argue the case and submit briefs before Judge O'Gear.

**Deafness Cannot be Cured**  
 by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh; which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

### FACTS and OBSERVATIONS

On Wednesday the writer spent a few hours at Marchess. He learned of nothing of special interest; the town was very quiet. Returning and enroute to Tale we stopped at Salt Lick. Work on Dr. Robbins and Blair's Infirmary progresses nicely and will be quite an addition to the town.  
 Mrs. Tom Harper while picking blackberries was bitten by a copperhead snake on Tuesday.  
 Wm. Hardin while harvesting, saw a copperhead snake. He intentionally picked it up by the tail. The snake did not like such familiarity, so retaliated by taking hold of Mr. Hardin's hand.  
 We heard something said about Mr. Clark and his friend winding the bank and also that Mr. Clark enroute from Chicago to county and while handcuffed, copied from Mr. Crooks. How would it do next time to shackle his feet or chain him to the officer.

#### GALVESTON'S SEA-WALL

**Southern City Making Effective Protection Against Tidal Waves**  
When the city of Galveston, Tex., shall have finished its projected three mile sea wall it will have a barrier of cement and steel along the ocean from five feet thick at the top and 16 feet at the bottom, a safeguard of stone which will rise some 17 feet above mean low water, or a foot and a half above the highest water of the flood of 1900. This wall will rest upon piles and be protected from undermining by shell filling and riprap. The foundations will be laid a little back from the usual high-water line, and about three feet above mean low tide. A second and quite as important feature of the project is the filling in of the land back of the wall for a stretch of some 200 feet. Thirty-five feet of this made level nearest the wall will be laid with brick so as to provide a walkway, if the top of the wall be included, of nine feet in width. Next to the driveway on the bay side of the filling will be a strip of 60 feet of embankment planted with Bermuda grass. There are large possibilities of artistic development along the wall as thus planned, and in their present temper the citizens of Galveston seem to be intent upon realizing these possibilities to the full.—Mobile Register.

#### Institute Minutes.

[Continued From Last Week.]

Institute was opened at 9 a. m., Tuesday, by bible selection and prayer from Rev. Mr. Clark. A sketch of Shakespeare's life was then read, and rolled called, each teacher responding with a quotation from Shakespeare's dramas. Reading was then discussed by Misses Greenwood, Barre, Corbett, Hedden and Mr. Squires; seconded by Prof. Winfrey. The thought method was considered finest indology, combined with word and alphabet methods. The danger of making thought subservient to punctuation was touched upon. After recess Mr. Cassidy, Superintendent of Fayette county schools was introduced. He emphasized the importance of lesson, and necessity of making the recitation a wide-awake one. To teach reading well, he argued, we must ourselves read well. Afterwards, he gave us some selections from the negro poet, Dunbar, which convinced us Fayette had lost its finest teacher of reading, to gain, according to Miss Anderson's introduction, "the best superintendent in the State." A talk on arithmetic followed, taken part in by Misses Savage, Ricketts and Veal; Messrs. Gunn, Squires and Winfrey. Miss Veal explained Speller's method and proved its value. We were taught the value of outside problems to cultivate observation and reason. In the afternoon, the topic of arithmetic was resumed. Mr. Winfrey presented a new and convenient method of teaching notation that delighted the institute. Grammar was thoroughly and pleasantly discussed by Miss McDonald, Mrs. Bryan and Winfrey. After which, the Rev. Mr. Joplin was assigned the topic of Pure English, "America," he says, "gathers unto herself all nations and all languages. Hence her mixed vocabulary, geographical boundaries also modify her tongue. In Pennsylvania, they put 'happ' (covariates) on the beds and 'red up' (clean up) their rooms. Both these words are genuine Anglo-Saxon. He contrasted McCauley's style with Carlyle's. The former, with words drawn from various sources, is more flowing, more pleasing perhaps. The rugged strength and vigor of the latter comes from the use of pure tracing English. The finest study of English open to us is the St. James version of the Bible. It is worthy to be studied, both devotionally and critically." Physiology and Hygiene were then taken up, and presented by Mrs. Walker, Mrs. Stevens, Miss Scott, Mr. W. H. Squires and Mr. Winfrey. The W. C. T. U. element felt encouraged in finding the professors had the grace to be advised of using tobacco and to try to keep the matter a secret from students. The neglect of compositions in our schools was broached, due, Mr. Winfrey thought, to that general malady of "laziness" on the part of teachers. "We were advised to give students subjects that they knew something about and in which they were interested. It being 4:30, the institute then adjourned. Submitted by Miss Barre, Sec'y.

### ANOTHER BIG FEUD.

One Killed and One Wounded in the First Encounter.

Whiteburg, Ky., July 22.—The United States mail carrier arriving here from Elkhorn creek, ten miles from here in the Eastern part of Letcher county, tells of another shooting there in which one man was killed outright and one severely wounded.

For several years there has been a difference growing between George Potter, aged 31, a notorious mountain tough, and Bob and John Killens, near neighbors. For six months they have been at daggers' points, and a clash had been expected momentarily. A month ago Potter and his brother attempted to assassinate the Killens, but failed, after firing six shots. They never met again until Sunday afternoon, when the clash followed. They met at a wayside store, all armed to the teeth. George Potter, the most fearless man in the lot, opened fire on the Killens. William Potter followed, a close second. All their bullets went wide of the mark. The Killens, burning with bitter hatred, returned the fire, and deadly volleys were exchanged for a few moments. When the smoke cleared away George Potter, the Elkhorn creek terror for many years, lay dead on the ground, while Bob Killens was severely wounded.

### OPERATOR BLAMED.

Accident Near Bowling Green—One Killed and Six Wounded.

Bowling Green, Ky., July 22.—The third section of southbound freight train No. 18, in charge of Conductor Campbell and Engineer Follis, and the first section of freight No. 13, southbound, with Conductor Peter Somers and Engineer Mike Crosby, collided about a mile north of this city Saturday night, with disastrous results. Thomas Flippin, head brakeman on No. 13, of Louisville, lay dead severed from body, leg broken and badly scalded. His clothes were injured. It is said the loss to the railroad company will be \$100,000. The L. & N. officials say that the collision was caused by the operator at Smith's Grove inserting the wrong time in the order.

### Children's Bodies Recovered.

Newport, Ky., July 22.—The body of little Harry Hennekeissel was recovered at 10 o'clock Sunday morning, within three feet of where the body of Mary Scherwing was found the previous day, at the foot of Clark street, Dayton, Ky. It was lying in about four feet of sand, with feet downward and head within two feet of the surface. The children were probably standing on the sand bank, when it caved in before the rising waters, throwing them into the river.

### Attempted Suicide.

Covington, Ky., July 22.—Minnie Grossheimer, aged 71 years, and living with her daughter, Mrs. C. C. West Second street, attempted suicide Saturday morning, about 10 o'clock, by jumping into the Ohio river, at the foot of Spring street. She sank in the mud, and her head barely showed above the water. She was rescued.

### Charged With Infanticide.

Greensburg, Ky., July 22.—Mrs. Hundley, who lives just over the line in Metcalfe county, who, with her daughter and a man named Welsh, was arrested some time ago for the murder of her illegitimate son, indicted Saturday in the Metcalfe circuit court for the murder of the child, as was also Welsh.

### Bitten By a Copperhead.

Harrodsburg, Ky., July 22.—Mrs. M. M. Preston, of Caneyville, was bitten on the hand by a copperhead snake, in a precarious condition. The snake had got into the house stove wood, and when Mrs. Preston reached for wood it bit her on the hand.

### Largest Boy in Kentucky Dead.

Paducah, Ky., July 22.—Horace Lane, the largest boy of his age in Kentucky, if not in the United States, died at his home in Ballard county. He was 15 years old, weighed 350 pounds and was six feet high. No coffin could be found large enough, and a carpenter had to make one.

### Body Recovered.

Covington, Ky., July 22.—The body of Ben Nunney, who was drowned in the Ohio river at the foot of Johnson street, Friday afternoon, was recovered Sunday morning when the record where they both went down.

### Severed An Artery.

Bellevue, Ky., July 22.—George Dudley, while cutting a wife's hair, severed his knife Saturday, accidentally severed an artery and sustained a four-inch gash in his left wrist. Dr. Senour stopped the flow of blood.

### Accidentally Shot Himself.

Columbia, Ky., July 22.—Ed Bryant, a young farmer, went out to shoot a hawk while in a tree his carbine was accidentally discharged, the bullet entering his arm, almost tearing it from his body. He may die.

### Run Down By An Electric Car.

Covington, Ky., July 22.—Fred Banks, 22, was run over by an electric car in Rosedale and badly injured. His leg was almost severed at the knee. It was amputated later at the hospital. Banks' condition is critical.

## LORD SALISBURY.

Distinguished Statesman Resigns Office of Prime Minister of Great Britain.

### HON. A. J. BALFOUR HIS SUCCESSOR.

The Liveliest Speculation is Rife in London as to the Personnel of the New Cabinet.

The Main Reason of Lord Salisbury's Withdrawal is His Desire For a Quiet Life, as He Is Well Advanced in Years.

London, July 22.—The fact of the resignation of the premiership of Great Britain by Lord Salisbury was officially given out Sunday evening. The prime minister had done so in the possibility of his office July 11. Within 24 hours his majesty elevated Mr. A. J. Balfour, the government's chief representative in the house of commons, to the position of premier. While it was expected in official and political circles that Lord Salisbury's retirement would be coincident with the coronation of King Edward, it was scarcely looked for prior to that event. Consequently about the only surprise expressed as the news spread through London concerned the date, rather than the fact, of the resignation. The real interest was not so much in reference to Lord Salisbury's withdrawal as it was in the appointment of his successor. The liveliest speculation is rife as to the personnel of the new cabinet. The most discussed feature of the pending changes is the position of Mr. Chamberlain (the colonial secretary) who, in many quarters, has been regarded as the most promising candidate for the premiership.

A reporter learns that prior to the acceptance of his new office, Mr. Balfour first had an interview with Mr. Chamberlain and then consulted with his other cabinet assistants. This is regarded as assurance that the future relative positions of Messrs. Balfour and Chamberlain will be satisfactory to both. Mr. Chamberlain's friends say he always recognized the reversion of the premiership to be Mr. Balfour's right as government leader in the house of commons.

As to Lord Salisbury's withdrawal, the main reason is considered by all the best informed persons to have been simply a desire for a quiet life on the part of a man advanced in years, whose activities have been unusual, and whose scientific tastes predispose him to study and seclusion. That the retiring premier's health has failed to some extent is undeniable; but this is not more than, perhaps, is to be expected in a man of his years, and the close of the war in South Africa and the return of the commanding general there is considered an appropriate time for his withdrawal.

It is learned that Lord Salisbury, in resigning, expressed the desire that his title or honors should be conferred upon him. The retirement of this last great statesman of the Victorian age is universally regarded as the transition from one generation to another and as marking the close of an era in the national life.

### GEN. THOMAS J. MORGAN.

Succumbed to Kidney Disease at His Home in Yonkers, N. Y.

New York, July 22.—Gen. Thomas J. Morgan, who has been ill at Yonkers, where he lives, died Sunday, aged 62. Death was due to kidney disease. Gen. Morgan was born in Franklin, Ind. At the outbreak of the civil war he enlisted as a private and rose to the rank of brevet brigadier general. President Harrison made him commissioner of Indian affairs. At the time of his death Gen. Morgan was secretary of the Home Mission society of the Baptist church. The body will be taken to Rochester, N. Y., for burial.

### Burying American Machinery.

Berlin, July 22.—A private dispatch received here from Warsaw says the agricultural societies of Poland are negotiating with American manufacturers direct for the purchase of machinery, excluding the German middlemen. This step is believed to be aimed at South German machinery.

### This May Settle It.

Springfield, Ill., July 22.—The United Mine Workers of Illinois will not yield for a general strike at the national convention to be held at Indianapolis next week. Without the votes of the Illinois delegates, it is said it will be impossible to call out the soft coal men.

Tien Tsin to Be Restored to China. Peking, July 22.—The foreign ministers to China have agreed upon the conditions for the restoration of the government of Tien Tsin to China, and these conditions only await the signature of the Italian minister.

### Death of George W. Stephens.

Moline, Ill., July 22.—George Washington Stephens, president and founder of the Moline Plow Co., died at his home here late Saturday night. He was 82 years of age.

Ohio State Press Association. Franklin, Mich., July 22.—The Ohio State Press association arrived here 300 strong for their annual meeting. The trip was made in a special train over the Ann Arbor railroad.

There are many of us who could not deal with the most troubles, even if they were within our reach. Every living soul can at least make beautiful and resplendent the small corner that belongs to him.

United States Consul McWade, at Canton, China, reports 3,000 deaths from cholera in Peking, and over 10,000 from the same disease in Kwelan.

Dr. George Ewing, a practicing physician of Smith's Grove, Ky., for over thirty years, writes his personal experience with Foley's Kidney Cure. "For years I have been greatly bothered with kidney trouble and enlarged prostate gland. I used everything known to the profession without relief, until I was induced to use Foley's Kidney Cure. After using three bottles I was entirely relieved and cured. I prescribe it now daily in my practice and heartily recommend its use to all physicians for such troubles, for I can honestly state I have prescribed it in hundreds of cases with perfect success."

### Mother Always Keeps It Handy.

"My mother suffered a long time from distressing pains and general ill health due primarily to indigestion," says L. W. Spalding, Verona, Mo. "Two years ago I got her to try Kodol. She grew better at once, and now, at the age of seventy-six, eats anything she wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time doctoring symptoms. Go after the cause. If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the only by digesting your food. It is nature's own tonic.

### Poisoning the System.

It is through the bowels that the body is cleansed of impurities. Constipation keeps these poisons in the system, causing headache, dizziness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is applied. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently, but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

# BARGAINS

Real and Unmistakable signalizing the Giant Sale of the decade which is now going on at the

## Busy Bee Cash Store

WILL CLOSE

## Saturday, August 2, 1902,

Prices will be stabbed to the heart and \$15,000 worth of reasonable merchandise will be converted into gold at prices that emphatically, decisively and overwhelmingly undersell any that were ever before made in this city.

The titanic proportions of this sale will be an epoch in the history of Mt. Sterling. It is a trade coup that has been carefully and skilfully prepared, and the managers of this great store will see the sale successfully consummated.

Prices on each and every article in the entire store will be marked in plain figures. Any child can buy bargains, same as grown up people, as there will be no deviations from prices named.

Owing to the magnitude of this great stock it will be impossible to quote prices. We name you a few to give you an idea of the great reduction we are making. Nothing reserved in this sale.

Wash Silks that were 50c are now 37c; Silk Gingham and Mercerized Novelties for Shirt Waists that were 50c are now 36c; our 89c warranted Taffetta Silks in all colors are now 67c; remnants of Silks good for factory work will be almost given away; all novelties in Wash Goods, Grass Linens, Silk Embroidered Strips, Silk Issues, Dotted Mulls that were formerly 60c, will go in this sale at 35c; all Wash Fabrics that were 25, 35 and 39c will be closed out at 13c. First come, first served. All 1 1/2, 15, 17 and 20c Wash Fabrics, such as Lawn, Dimities, Fancy Lace Effects, Batiste, etc., will all be given out at 10c; all 10c Wash Goods will be 7 1/2c in this sale; 7 1/2 and 8 1/2c stuff will be 4c. Don't wait to hear how your neighbors found things at the sale; come and see for yourself; get what's coming to you.

Our \$1.00 American Lady Corsets, 89c; our \$1.00 Thompson's Glove-fitting Corsets will be 75c in this sale; our 75c Corset will be 59c; 50c Corset will be 38c, and 39c Corset will be 24c. A job lot of good brands of Corsets worth \$1.00 each will be sold in this sale at 23c. Sizes broken. This price is to clean them up.

Our \$3.00 Ladies' Slippers and Oxfords, sale price \$2.29; our \$3.00 Ladies' Shoes, sale price \$2.41; our \$2.50 Ladies' slippers and Shoes, sale price \$1.85; our \$2.00 Ladies' Shoes and Slippers, \$1.50; our \$1.40 and \$1.75 Shoes and Slippers will be sold in this sale at \$1.15, and all our \$1.00 and \$1.25 Shoes and Slippers will be closed at 79c. This is a sale to reduce stock and our loss will be gain for our friends and patrons. Take advantage of this sale, the greatest ever held in the city's history.

Men's Suits that were \$12.50, \$14.00 and \$16.50, sale price will be \$8.40; all Suits that were \$7.50, \$8.50 and \$9.00 will be in this sale \$5.98; all-wool Suits for men that were worth \$5.50 and \$6.50 will be \$3.95 in this sale. Odd Pants for Men, Boys and Children's and Boys' Suits and Parts of Suits all go in this sale at the Closing Out Sale prices.

Twenty-five dozen Men's Balbriggan Shirts and Drawers worth 50 and 75c each will go out during this sale at 37c each; 30 dozen Men's Balbriggan Shirts and Drawers former price 35c, will be closed in this sale at 19c each; Men's Patent Seam Scrivens Drawers during this sale at 39c.

All Carpets, Mattings, Oil Cloths, Linoleums and Rugs have felt the keen edge of our knife and prices have been cut in this department beyond recognition. Remnants of Carpets and Mattings will be priced you so cheap that you will feel like giving us more for them. Lace Curtains and Oil Shades will almost be thrown in to make up your bundle.

Our object in making this Great Sacrifice Closing Out Sale is to reduce stock and make room for fall goods and get the money to pay for our fall stock. We are making a great sacrifice and loss to do this. We earnestly invite you to attend this sale, save money for yourselves, and help us.

Very Respectfully,

# Oldham Bros. & Co.,

## The Secret

Of womanly health would be esteemed as priceless by thousands of suffering women. Each month sees them mourning in a darkened room. At the last they endure pain every day. At the word the pain becomes torment.

The secret of womanly health is in keeping the womanly organism in a perfectly healthy state. This can be done by the use of Dr. Pierce's Favorite Prescription. It regulates the periods, drives debilitating drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Women suffering from chronic form of disease are invited to consult Dr. Pierce, by letter, free. All correspondence is held as strictly confidential and womanly confidences are guarded by strict professional privacy. Address Dr. R. V. Pierce, Buffalo, N. Y.

Accept no substitute for Dr. Pierce's Favorite Prescription. There is nothing else "just as good" for womanly ailments.

"I suffered for more than ten years with female weakness of very bad form," writes Mrs. L. Maxwell, of Terre Haute, Indiana. "I used Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' with good results. I am able to do all my own work now. I do not know how to thank you enough for the kind advice you have given me by letter. Your remedy did for me more than all other doctors' medicine, and I have taken lots of them."

## Vacation Days.

Vacation time is here and the children are fairly living out of doors. There could be no healthier place for them. You need only to guard against the accidents incidental to most open air sports. No remedy equals DeWitt's Witch Hazel Salve for quickly stopping pain or removing danger of serious consequences. For cuts, scalds and wounds. "I used DeWitt's Witch Hazel Salve for sores, cuts and bruises," says L. Johnson, Swift, Texas. "It is the best remedy on the market." Sure cure for piles and skin diseases. Beware of counterfeits.

## ALMOND CULTURE.

The Story of Its Successful Introduction in California.

In the old Roman days nuts were not only part of every dessert, but they served also as playthings for children. From this latter use a curious custom was evolved in the Roman marriage ceremony. The bridegroom, as he led his bride to his future home, threw nuts to the gaping crowd, to symbolize that he thus cast aside all his boyish sports. From these Romans has descended to us the thought that nuts signify pleasure; and most of us to-day consider them the trifle that give excuse for remaining at the table when it takes its airiest flights. As a people we speed a large sum annually for nuts, as mere delicacies, either in their original form or as disguised by the confectioner's skill. On the other hand, an increasingly large number of our citizens are adopting the nut as a substantial portion of the meal, as a substitute, in part or in whole, for fish foods.

With the increased consumption of nuts, attention has been turned to their production. The almond, alone that it is, has been experimented with in various parts of the Union. It was to be ascertained that the almond would thrive wherever the peach did, so, nearly 50 years ago, the commissioner of patents obtained a quantity of almond seedlings and buds from abroad and distributed them throughout the southern and middle states. The trees grew and bloomed profusely, but did not fruit. The experiment was repeated in California, with almost an equal failure, and it was beginning to be accepted as a fact that almonds could not be raised in the United States. Then Mr. A. T. Hatch, who owned a ranch near Suva, Cal., threw his energy into the industry, says Country Life in America. He found that seedlings produced in California matured faster when the imported ones failed; and that not only did the nuts differ from the foreign almond, but they varied according to the locality in which the seedling was raised. From among 192 varieties that he created four were chosen to be developed further as staple products. By forming partnerships with a number of farmers, he was able to test the effect of different climatic conditions. It was learned that almonds mature in a warm climate dry in summer. The more moisture they can have in growing time the plumper the nut, but they require dryness when ripening. These requirements exclude from almond culture parts of California where the trees were first started. Although California has paid more attention to the almond than has any other state, Arizona, New Mexico, and Texas, also, have localities with climate adapted to this nut, and they have entered into its culture to small extent. The almond industry in the United States is yet in its infancy; and if it continues to grow as it has in the past decade, we may hope not only to cease importations, but, within the first quarter of the century, to begin exportations, both in its natural state and in all the oils, "health foods" and cosmetics that art is capable of evolving.

## HEDGEHOG AND VIPER.

A Peculiar Duel in Which the Snake was Disastrously Defeated.

A resident of Versailles, M. Gulgut, sends to Nature a vivid account of a duel he saw between a hedgehog and a viper. The two enemies fought very well at first sight, but the viper, not only to cause importations, but, within the first quarter of the century, to begin exportations, both in its natural state and in all the oils, "health foods" and cosmetics that art is capable of evolving.

Chenault and Hildebrandt bought 3,000 of Blue Grass seed from J. S. Bogie at 75 cents, August delivery.

The plant of the Farmers' Blue Grass Seed Co., was sold at public auction at Winchester Wednesday, Mr. J. Hood Smith being the purchaser at \$5,030.

On the Chicago Board of Trade on Saturday also sold at sixty five cents, the highest price reached since 1874. The causes for the jump were the fear of shorts in July options and the great damage by rains to ripened crops.

S. B. Terry, of Lawrence, sold 3 cows, 900 lbs., at \$80.

Jno. B. Kennedy, of Paris, sold a car of fat cattle at \$7.

Haley and Cunningham, of Bourbon, sold 100 1450 lb. cattle at \$7.

Judge H. C. Smith, of North Middletown, sold 80 head at \$6.75.

## Injunction Dissolved.

On Saturday, Judge O'Rear, of the Appellate Court, dissolved the injunction recently granted by Circuit Judge Ausler, at Pikeville, in the case of the South and Western railway against the Big Sandy Railroad Company. The company was in possession of the only right of way through the "breaks" of the Sandy and the South and Western Company sought to obtain it. This dissolving of the injunction leaves the Big Sandy Company in possession.

## China Again Appeals to Uncle Sam.

China, through two of its Viceroys, has appealed to the United States, through Secretary Hay, to intervene in the payment of the Boxer indemnity to the foreign Powers. The question is whether it shall be paid in gold or silver, and as some nations are insisting that it be paid in gold, it is asserted that this is an impossibility on account of the impoverished condition of the Government's Treasury and the people.

## Reorganized.

It is reported from New York that a plan is under way for a radical readjustment of the affairs of the Consolidated Empire Quicksilver Mining Company, in which Anderson T. Herd, Senator Debe and Minister Hunter are reported to be interested. The capital stock is \$5,000,000 of which about \$1,000,000 was sold for cash and the remainder given to the vendors of the property. It is said that this selling price was far beyond the property's value and that the vendors will be called upon to surrender three-fourths. The cash holders of stock will not be affected, it is reported, and the capital stock will thus be reduced to \$2,000,000.

**COLLINS**—Lewis D. Collins died at his home near Flemingsburg on Tuesday. While riding horse back from the home of his son on Monday evening about 8 o'clock he was taken sick. In a few minutes he was found lying unconscious on the road beside his horse. He had evidently dismounted when the sickness attacked him. He was 56 years old and leaves 8 children.

**TIBBS**—Lucy Cassidy Tibbs oldest daughter of M. M. Cassidy and wife, was born December 5th, 1859 and was married to Rev. W. T. Tibbs, June 5, 1877. To them was born one child, Miss Mary H. Tibbs. She died on Monday night, July 21st, 1902 at 11:10 o'clock, of heart failure, following nervous prostration which occurred May 12. From childhood she has been a Christian. Funeral service, at the home of M. M. Cassidy on Wednesday afternoon, at 4 o'clock, conducted by Rev. H. D. Clark. Burial in Macphelah.

This is the second death in the family of Judge Cassidy, a brother of a few months stood at the "open door" to welcome his sister when she entered her home last evening.

In 1876 we first knew the departed, then a girl in the bloom of life.

A year after she became a pastor's wife, and in this new relation she performed her duties well. We knew her as wife, as mother, as daughter, and as a Christian.

In each relation she was the lovely character, pure of heart, worthy of emulation. In her home was the word of God, and with holy things she was delighted to associate.

Her home was a garden of rare roses indicative of the refined life and the pure atmosphere in which she lived and in her room are the palms of David, the songs of poets, music of the inspired, pictures illustrative of a world approaching to God life, the family altar where she talked with God. This earthly casket, now a spirit messenger, to the throne, leaves behind her prints, not canvas tracing more ennobling, inspiring, encouraging. To the husband and daughter in sorrow, the aged father and mother, the three remaining sisters and other dear ones in their bereavement we would offer God's comforting grace. The dear one is not dead, she sleeps to awake in glory. Our sympathy to the family and friends.

**THE MIDWAY.**

Owing to the damage done by a cyclone to the Midway while at Richmond, the opening of same was unavoidably delayed until to- day. The gates of the Midway will be thrown open to the public at 12 o'clock to-day, and we are assured by the management that all of the attractions are the very best. Many of our people saw the shows at Richmond last week, and the praise of same is universal.

**THE FLOWER PARADE.**

The only flower parade ever seen in this section will be given on Thursday, the line of march to be announced later. Many beauti- fully decorated vehicles will be in line and the parade will be worth coming miles to see. The Queen of the Carnival, accompanied by her Maids of Honor, will occupy a finely decorated carriage in the parade.

The Midway will be open each day from 12 noon to 11 p. m.

Millie Christine, the two-headed girl, is one of the star attractions of the Midway.

A young couple from Morehead will be publicly married at the Midway on Thursday at 8 p. m.

### THE SICK.

Mrs. J. D. Burchett is quite sick at her home in this city.

Mrs. Sallie Berry, who has been dangerously ill for some days at the home of her sister, Mrs. Mary Stoner, is somewhat better.

Bert VanEvert, Jr., has been quite sick since Saturday noon with indications of scarlet fever.

Clay Cooper, who returned from Louisville a few weeks ago, where he had been under a specialist and was very much improved, grew worse and last week re- turned to Louisville. He is in better spir- its, but is in a very critical condi- tion.

Tipton Young who has been con- fined to his home for two months or more with typhoid fever and who had very much improved has had a relapse and his friends have become very solicitous concerning his condition.

**Street Fair Parade.**

Today the town is alive with floats, each striving to surpass its neighbor in beauty and artistic decoration. The grand parade starts at 10 o'clock from the show grounds on High street, goes to Mayville, down Mayville to Main, down Main to Richmond avenue, down Richmond avenue to Locust, up Locust to Mayville, Mayville to Main, Main out to Midway.

The parade will be made up of the local lodges of A. O. U. W. and Workmen, Merchants' Floats, visiting floats, fire department, etc. Every one should see this parade, as it promises to be mag- nificent.

**ENCAMPMENT.**

The annual State Guard Encamp- ment will be held at Mammoth Cave one of the world's wonders, beginning July 30 and ending Aug- ust 18, 1902. It is the desire to make this the most attractive and entertaining encampment yet held, and to this end, the social features during the encampment will be quite extensive. Three "Grand Balls" will be given during each regiment's encampment, aside from the "hops" that will occur nightly.

One in honor of the Governor, one in honor of the Adjutant Gen- eral and one in honor of the officers of each regiment.

The satisfaction of viewing Mam- moth Cave, an education within itself, the pleasure of boating, fish- ing and bathing in historic Green River, together with the numerous social festivities, will make this an exceptional time for making the trip.

The lowest rates ever given by the railroads of the State, will pre- vail during the entire encampment, while equally as low rates will be given at the hotel, and for car- rages.

### Floral Hall.

The Floral Hall is a vision of beautiful objects, tastefully ar- ranged. The useful and ornamen- tal are found side by side, each the complement of the other. The hall is beautifully decorated, and serves as a most artistic background for the elegant displays of Battenberg, point lace, all manners and degrees of embroideries, gorgeous specim- ens of hand painted china, crocheted rugs, shawls, etc. The prices are very full, except in the Children's Department, and it is most earnestly requested that that kind of work from the public schoolchil- dren and of others be sent in at once. Compositions, drawings— all such work should be sent in immediately.

Much is expected in the line of establishes which will be fresh for the judges Wednesday.

The window of photographs by Miss O'Rear is a great source of pleasure to all who gaze upon it. By her artistic posing and the technique of her finish she has produced some elegant creations.

The hall is in charge of diligent caretakers who are using every means to keep the entered articles inviolate both day and night.

A cordial invitation is extended to the ladies to make this their headquarters during the fair, and they will find everything possible for their comfort and convenience. A piano will furnish amusement to some, and arrangements are being made for the serving of cream and cake. The hours are from 10 to 12 a. m. and from 2 to 4 p. m.

### Fine Property Sold.

Mrs. Elizabeth Everett has sold her residence, property on May- ville street, less a lot clay through the side of it fronting sixty-six feet on Mayville street, to Mrs. Nannie K. Hibler and Miss Mamie Turner for \$6,500. The lot re- tained by Mrs. Everett is valued at \$3,500, making the sale value of the entire property \$10,000. This is a handsome school location and will be used by them in which to conduct Everett Seminary. It will prove a fine drawing card for the school, and if all their selec- tions for teachers, etc., are as wise as this, success will be visible in each deal.

Mrs. Everett has left a choice lot and will at once put it at a residence with all the modern conveniences.

"There's many a true word spoken in jest." The familiar feminine jest, "the way to a man's heart is through his stomach," is a perfectly accurate statement from the view point of the physiologist. Not only is the heart reached through the stomach, but the lungs, liver, kidneys and every other organ must be reached in the same way. The several organs of the body are mutually dependent and mutually helpful. But all of them depend on the stomach. The blood is the life of the body. The lungs, liver, kidneys, heart, are each busy with the blood, oxygenating it, purifying it from effete substances, distributing it throughout the circulatory system. But there would be no blood to purify or circulate but for the stomach; for blood is made from digested food, and the stomach and its allied organs of digestion and nutrition are blood makers. We overlook the fact that man as a whole is made up of his organs and members. We say a man is weak, but forget that this physical weakness must be distributed among all the organs—the heart has its share, the liver its portion and so with kidneys and lungs; and thus the total weakness of the man is expressed by the sum or the weakness of his organs.

Physical strength is made from food, converted into blood by the digestive processes. If a man is weak the cause may be lack of food, food deficient in the elements of nutrition, or inability to digest and assimilate the food eaten. The latter is the common cause of a weak, debilitated condition in man or woman. In such a case it is the custom to speak of the stomach as being "weak." But when the weakness due to lack of nutrition begins to be felt by the whole body, it is not often remembered that behind the "weak" heart, kidneys, lungs, liver, etc., is the "weak" stomach.

But that is the real truth, and the first sensible step toward restoring the strength of the body—making the heart strong, the lungs, kidneys and liver strong—is to make the stomach strong. Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of food, and by the nutrition of food restores the weak body to strength. That strength is distributed among the organs of the body as the weakness was, heart, liver, lungs, kidneys, each having its share of strength.

"For one year I suffered with chronic liver complaint, indigestion, etc., and for a long time continued pain in stomach," writes Mr. T. B. Dame, of Hanson, Ky. "Liver would swell, and at times it seemed every breath would be the last. Had palpitation of heart and vertigo almost continually for more than twelve months, also a constant quivering inside. Sometimes my nerves would give way, and then I would scarcely have strength to walk. At times this would not last an hour, while at other times it would be two days. I was reduced in flesh to a mere skeleton, could myself a human wreck. Five home doctors treated me, but I only had temporary relief from the pains. Two of the doctors said I had organic heart disease, with nervous prostration. I wrote to a Chicago specialist, stating all my afflictions in detail. He wrote that I was probably in the last stage of heart disease. Then wrote to you, giving you my case in detail. You pronounced my trouble chronic liver complaint with indigestion, and advised me to try 'Golden Medical Discovery' and Dr. Pierce's Pleasant Pellets, and stated that if these remedies did not succeed in restoring my health you would send special treatment. I took nine bottles of the 'Discovery' and six vials of the 'Pellets,' and then stopped taking them as it seemed I was entirely well. Was soon able to do light work, and gained in flesh and strength. My neighbors soon began to say to me, 'You are looking like your old self again.' Am gaining in flesh and strength all the time, and am satisfied that if I had not written to you and taken your advice I would now have been in my grave."

Dr. Pierce's Golden Medical Discovery makes the weak stomach strong, and eliminates the impurities that clog and corrupt the blood. But its great success in the cure of heart trouble is also due to the fact that it contains one of the best heart tonics known to physicians. It strengthens the weak heart while it removes the causes by which it has been overtaxed and unduly.

The fact that the diseased organs seemingly remote from the stomach are cured through the stomach is plainly proved by the gain in flesh as the result of proper nutrition. "I gained in flesh and strength." "I weigh more than ever before in my life." Those are the common experiences of the men and women cured by the use of "Golden Medical Discovery." Friends note the change and say, "You are looking your old self again." And this outward visible and weighable gain in flesh must and does carry with it a gain in the health of the organs invisible but vital to the body.

"I had been sick for more than a year with kidney trouble," writes Mrs. Lucy Hayter, of Jackboro, Jack Co. Texas. "Several different doctors treated me, but none did me any good. One doctor said I never could be cured, that I had Bright's disease. I suffered nearly death at times; had spells the doctor called spasms. Was 'fed' most of the time for six months. My mother begged me to try Dr. Pierce's Golden Medical Discovery. With but little hope I wrote to Dr. Pierce and he said he could cure me. I began to take the 'Golden Medical Discovery,' and although I had given up to die I began to improve from the start, and by the time I had taken twenty-two bottles I was entirely cured. I weigh more than ever before in my life and I am entirely well."

Accept no substitutes for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

**STILL NEGOTIATING**

Final Overtures for Settlement of the Freight Handlers Strike to Be Made.

THOUGHT IT WILL BE A FAILURE.

The Railroads Agree to Pay Seventeen and a Half Cents Per Hour, But the Men Demanded Eighteen.

The Strikers Will Reject All Proposals Which Shall Not Stipulate For the Payment of the Union Wage Scale.

Chicago, July 14.—Final overtures for the settlement of the strike of freight handlers and teamsters were made at meetings of the two unions Sunday night. At the instigation of the members of the Chicago board of arbitration, the freight handlers agreed to send committees to all the railroads Monday morning. This agreement was made after the board had announced to the union men that eight of the largest railroads entering Chicago had agreed to pay 17½ cents an hour to truckers, and pay for overtime, and to do away with the demand for a probationary period of service.

The general managers of two of the roads declared that they had agreed to no such proposition. They declared that when the committees shall visit the railroad offices Monday, the roads will offer them the same terms as those which were rejected by the union men Saturday. The statement from the general managers destroyed the hope of a settlement of the strike Monday, on the basis of the terms suggested by the general managers of the railroads.

Even if the general managers had not insisted upon maintaining their position it is not probable that a settlement could be effected. The freight handlers agreed to make another effort to reach a settlement with the railroads only to please the teamsters, who previously had endorsed the attempt of the board of arbitration to settle the strike.

There is lack of evidence of their intention to make a serious effort to settle the controversy. President Curran, of the Freight Handlers' union, stated Sunday night that the committee shoulders will insist on the payment of 15 cents an hour, instead of 17½ cents, which the railroads are reported to have offered.

He also stated that the freight handlers will make no more overtures and hereafter will reject all proposals which shall not stipulate for the payment of the wage scale as formulated by the union, and the recognition of the organization.

With the general managers and the unions both maintaining these respective positions, it is believed that there is slight chance for a settlement and that when that opportunity shall have vanished, it will be a fight to a finish.

Every teamster's union in Chicago that has members handling freight voted Sunday to refuse to take teams to the freight depots.

Fruit and Vegetable Growers Much Alarmed Over the Situation.

Carbondale, Ill., July 14.—Fruit and vegetable growers of Southern Illinois are much alarmed over the strike of the freight handlers in Chicago. Thousands of dollars' worth of tomatoes are rotting in the fields. Much fruit, including peaches and apples, is ripening and will be in marketable condition during the present week. None of the growers or shipping associations in the fruit belt will ship to Chicago under present conditions.
